PRODUCT SHOWCASE

DESCRIPTION

- The highly accurate KERN CCS counting system can replace a whole range of individual balances, efficiently and at a reasonable price

Reference scale KERN CFS 6K0.1

- This professional counting scale, which can also be used as a stand-alone scale, meets the highest demands for accuracy, weighing capacity and volume of items, by being connected to a high-capacity weighing bridge
- Programmable using numerical key pad:
 - required reference quantity
 - known reference weight
- Three displays for weight display, reference weight, total pieces
- Memory (PLU) for items with additional text, reference weight and tare weight, e.g. of a container
- Fill-to-target function: Target count or target weight can be programmed. When the target weight is reached there is an audible and visual signal
- Precise counting: The automatic reference weight optimisation of reference weight gradually improves the average piece weight value
- Protective working cover included with delivery

Quantity scale KERN KFP-V20 IP65

- The high-accuracy quantity counting takes place on the weighing platform. In this way even the smallest of parts can be counted in large volumes
- Weighing plate stainless steel, painted steel base
- Aluminium singlepoint load cell (1×3000 e), protection against dust and water splashes IP65
