## PRODUCT SHOWCASE

## DESCRIPTION

- KERN antivibration plates YPS have been constructed to absorb vibrations and oscillations, which would otherwise distort the weighing result from highly-precision analytical and precision balances. Also ideal for vibration-free positioning of microscopes
- The antivibration plate is made from polished granite and is positioned on absorbing rubber components.
- You can work in an ergonomic way at the antivibration plate whether you are in a standing or seated position.
- Compact size, practical for small spaces
- All surfaces are hygienic and easy to clean
- Suitable for all KERN analytical balances, precision balances and microscopes with appropriate dimensions
- Overall dimensions W×D×H 400×450×60 mm
- Net weight approx. 30 kg

Ready to send in 2 days. Dispatch complete on pallet.
