information

## DESCRIPTION

- The drag pointer is made of a plastic ring with smooth-sliding Teflon coating and this coating means that it can slip easily over the scale tube
- Application: Before taking the measurement, push the drag pointer to the zero point. When load is placed on the balance the drag pointer moves alongside and remains at the maximum force for each measurement process
- Suitable for tear-resistance testing up to

## SPECIFICATIONS

### Article codes, product groups & Status information

Model article-code	285-897
Model-Serie	285-ACC
Assortment	Sauter
Product Type	Force measurement
Product group	Mechanical force gauges & spring balances
Product usage type	Accessories/DL
EAN code (Model)	4045761002425
Customs tariff number	84239010

### FUNCTIONS

Standard

### Technical data - Packing & Shipping

Dimensions packaging (W×D×H)	35×35×13 mm
Gross weight	0.05 kg
Net weight	0.05 kg
Shipping method	Parcel service
UN number	No dangerous goods
Packaging component - by weight - plastics	2 g
Delivery time	1 d
